

Business Analytics

Analysts

Data sits at the heart of every organization and is relied upon for all aspects of operations, analysis, decision-making, reporting and planning. **Business Analytics** is the practice of using data to drive business strategy and performance. It includes a range of approaches and solutions from looking backward to evaluate what happened in the past to forward-looking scenario planning and predictive modeling.

By understanding decision makers' roles to maximize analytics value, Deloitte turns everyday information into useful and actionable insights. Analytics combines complex data querying, with sound statistical concepts and subject matter knowledge to test hypotheses or make predictions. Analytics brings together people, processes, technology and data to turn everyday information into useful and actionable insights that inform decision making.

Currently Deloitte Bulgaria is starting up a new challenge – local Analytics Center of excellence which will provide considerable benefits to EMEA countries when pursuing and delivering analytical engagements. Deloitte's unique capability to construct teams from resources with strong industry experience, coupled with advanced and predictive analytic thought leaders, creates unprecedented value in project delivery.

We offer unique opportunity for talented individuals who wish to pursue a career in Data Analytics.

Our requirements:

- Fresh graduates with majors in Economics, Mathematics, Statistics, Econometrics, Computer Science or related;
- Excellent command of English and Bulgarian;
- Excellent general computer literacy including analytical software knowledge of at least one of the following: SQL, R, SAS, SPSS, Matlab;
- Strong analytical skills;
- Willingness for extensive travel in EMEA;
- Motivated, pro-active, willing to learn and to develop;
- Fluency in another European language and/or good knowledge and understanding of databases would be considered advantages.

Timeline:

- Application deadline: May 31th, 2014;
- Interviews and assessment to be conducted by mid of June;
- Pre-selected candidates will be invited to a two-week **"Deloitte Analytics Knowledge School"** with focus on Data Mining and Business Intelligence (July 21 – August 1);
- All participants who successfully pass the Knowledge School will get completion certificates issued by Deloitte;
- **The best participants will get job offers for full-time employment on entry-level position as Data Analysts as of Sept. 2014.**

We will offer:

- Challenging experience within one of the global leader firms providing professional services and advice;
- Intensive training opportunities and access to e-learning programs;
- Competitive remuneration and opportunity for long term professional career;
- Practical focus and intensive participation in international team and diverse assignments.

If you are ready to take the challenge, please apply online to position number DBA-0414 on our website www.deloitte.bg or send your resume in English to e-mail address: careersbg@deloitteCE.com at your earliest convenience but not later than May 31, 2014. Only short-listed candidates will be contacted and invited for assessments and interviews. All applications will be considered under the terms and conditions of confidentiality in accordance with the regulations of the personal data protection
