

Mobile Web Developer

Komfo is the leading IT company in Scandinavia, that provides an innovative subscription-based social media management system. From its outset, Komfo has focused 100% on the commercial opportunities offered by Facebook's platform and, for that reason, was the first Scandinavian company to be accepted onto Facebook's Preferred Developer Program in 2010.

Our product has a very strong position in the Scandinavian market with more than 300 customers, including Electronic Arts, Microsoft and Samsung. Komfo was born with a global vision and is ready to take over the international market. Our offices in Denmark and Bulgaria are currently employing over 60 experienced professionals. For the expansion of our Sofia office we are looking for a: **Mobile Web Developer**

Technical requirements:

- Excellent knowledge of HTML, CSS, Javascript (at least 2 years of professional experience);
- Excellent knowledge of javascript-related libraries like jQuery, underscore.js and other.

What we expect from you:

- Take active part in the mobile development of our Social Media Management System;
- Research better ways to build things and contribute with your knowledge;
- Be a good team player.

What we offer:

- Innovative and supportive environment;
- Opportunity to work with cutting edge technologies such as CoffeeScript, AngularJS, PhoneGAP;
- Opportunity for career development;
- Excellent remuneration with extensive social benefits.

The candidates approved for interview will be contacted within 2 weeks of application.

All CV-s will be treated in strict confidentiality and in full compliance with the Law on Personal Data Protection. KOMFO Ltd guarantees that the personal data of all applicants will be used solely for the purposes of this selection and your personal information will NOT be provided to third parties.
