

QA SPECIALIST

Smart IT is a leading young, creative and motivated player in developing and supporting custom software applications for Private, Financial and Government institutions. We develop custom ERP, CRM and CMS systems. We also are experts in designing corporate, product and presentation websites. Some of our clients are International companies like Easy Asset Management JSC, ICredit etc.

Our developer team is skilled in .Net, LINQ, C#, ADO.NET, Entity Framework, WCF, WPF, Windows Forms, T-SQL, SQL, Visual Studio, APS.NET, HTML5, CSS3, jQuery, Android, iOS.

We are a Software Team and looking to hire QA Specialist

Requirements:

1. A minimum of 3 years of Software QA testing experience
2. Excellent problem solving skills
3. Responsible for understanding both the business objectives and the technical implementation of the company's software product line
4. Experience with at least one Testing tool
5. Sharp Eye for detail and consistency is a must
6. Very good understanding of Software Development Life Cycle
7. Comfortable working directly with developers
8. Responsible, highly motivated and team oriented person

A plus would be:

1. Knowledge of .NET
2. Some experience in testing of mobile applications

You will:

- have a critical eye for detail and be motivated to explore our products in pursuit of identifying problems that will be important for our customers.
- Define and implement quality assurance practices and procedures for the company's software.
- Design and implement tests
- Develop automation tools to improve quality and test-process.
- Work with business owners to develop acceptance criteria
- Write test documentation such as test cases and scenarios

Our offer:

1. Flexible working time
2. Individual work-schedule for students
3. Opportunity for career growth in a dynamic cross-country company

4. Interesting work with the latest technology
5. Excellent working environment in a young and motivated team
6. Company-sponsored training and certification
7. Flexible Bonus scheme
8. Additional health insurance
9. Smart mobile phone + sponsored mobile plan
10. Regular team buildings and celebrations
11. Cool stuff like XBOX360 KINECT, foosball, table tennis, darts and etc.
