“Inense your” career!

Join our young and growing team as **Trainee Software Developer** in our R&D center in Sofia to provide the best service to our customers. Discover multiple industry sectors (Aerospace & Defense, Automotive, Energy, Transportation, High-Tech, Life Science) and develop yourself.

With us after in-depth training on enterprise software suites and their development toolkits, you will become PLM Developer and will participate in customization and integration of software in clients' environments.

After 2-3 years of experience, you will reach the level of INENSIA PLM Application Architect and will take the lead of ambitious transformation projects!

Your Role:

- ⚙️ Understanding functional specifications describing the expected PLM solution
- ⚙️ Designing and implementing specific customizations (front-end and back-end) and interfaces between information systems (i.e. PLM to ERP such as SAP);
- ⚙️ Implementing migration tools to load legacy data into PLM
- ⚙️ Developing scripts to automate functional and non-regression testing

Our Requirements:

- ⚙️ 0-1 years of experience in software development
- ⚙️ Knowledge in C#, JavaScript, HTML, CSS, SQL
- ⚙️ Ability to attend the internship on full time schedule
- ⚙️ Advanced in English, both spoken and written
- ⚙️ Sense of responsibility, autonomous, proactive, resourceful and team player

Our Offer:

- ⚙️ Competitive remuneration package and additional company benefits
- ⚙️ “Start-up” approach / end to end involvement / new leadership opportunities
- ⚙️ Continuous training & opportunity for development
- ⚙️ International experience
- ⚙️ Friendly and stimulating work environment

This is a 3-month paid internship program which upon successful completion will be prolonged as full-time or flexible employment.
